

PHYSICS:

1.HC VERMA

2.BM Sharma

3.PYQ

CHEMISTRY:

1.MS Chouhan

2.JD LEE and VK Jaiswal

3.N Awasthi and OP Tandon

4.PYQ

MATHS:

1.Arihant Maths

2.PYQ

ORDER OF SOLVING:

- 1.Learn from Lectures thoroughly and deeply.**
- 2.Solve DPP on same day(Try to solve atleast 60-70% questions without seeing solution and take time,don't hesistate).**
- 3.On Saturday and Sunday,solve from the books and try to revise the concepts learned on that week.**
- 4.Solve maximum of book examples and also PYQ after the completion of the chapter.**
- 5.Try all examples max 3-4 times before seeing the solution and learn the concepts involve in the question not the solution of the particular question.**
- 6.Atleast solve 70-80% examples and 40-50%(or 30-40%) of exercise if possible.**
- 7.Solve all PYQs if possible atleast 70-80%.**
- 8.After all,make a formulae sheet of each chapter having only formulaes.**
